WHAT YOU GET				
Machines & QR, breakdowns, work orders, PM, reports	✓	✓	✓	✓
Inventory, suppliers, purchase orders	✓ small	✓	✓	✓
Automatic PO emails and low-stock alerts	—	✓	✓	✓
Contractors, shift handover, training, safety	—	✓	✓	✓
MOE analytics · audits · Kaizen · evaluations	—	—	✓	✓
Multi-plant management	—	—	—	✓
No storage limit · AI · 13 languages (Sinhala, Tamil)	✓	✓	✓	✓

AI credit: 1 = a normal AI suggestion, 6 = one with web research. Enterprise: every limit is set in the contract — nothing is unlimited (see page 3).

Your data: who sees what, and for how long

The same on every plan. There is no storage limit — older files are packed into a ZIP for your admin.

Data	Supervisors & other staff	Plant manager & admin	After that
Closed work orders, breakdowns, work permits	30 days after closing	12 months, with attachments	ZIP archive with attachments goes to your admin, then is removed online. Analytics summaries stay.
Older records for a supervisor	Ask in My Requests. A plant manager or admin approves — read-only access for 24 hours to 30 days.		Older than 12 months: your admin gives the ZIP.
Training	Trainee and managers see the certificate	Certificate + results summary	Progress and quiz answers cleared 30 days after the certificate. Certificate kept.
Trainee programme	—	Certificate with final mark	Programme and weekend summaries cleared 30 days after certification.
Notifications	Cleared once everyone has read them — at most 30 days.		—

Add-ons (any paid plan)

- Extra full user — **$10** / month
- 10 extra light users — **$5** / month
- 25 extra machines — **$10** / month
- 1,000 extra inventory parts — **$10** / month
- 500 AI credits — **$25**
- 12 more months of online records — **$5 / $15 / $60** (Starter / Growth / Factory)

Trial, billing and safety of your data

- **14-day free trial**, no card; every module except multi-plant.
- Pay monthly, or yearly and get 2 months free.
- Nothing is removed online until your admin has the ZIP, or 60 days after the first notice.
- The ZIP opens without FirmiCore and stays available to download for 12 more months.
- Existing customers keep their current terms for 12 months and get 90 days' notice.

Policy proposed — final wording of the 60-day rule and the retention periods for permits and safety records should be confirmed against local law.

FIRMICORE · ENTERPRISE

Enterprise: how a custom quote is built

Every limit is a number in the contract. Add the lines you need; minimum $1,000 per month, annual contract.

Line	How we set the limit	Price	Volume price
Platform base	All modules, 1 plant, standard support	**$500 / month**	—
Extra plant	Number of plants beyond the first	**$150 each**	—
Full users	Staff headcount × 1.15	**$9 each**	51–100: $8 · 101+: $7
Light users	Operators + trainees × 1.15	**$1.50 each**	251+: $1.20
Machines	Asset register × 1.25	**$0.60 each**	1,001+: $0.40
Work orders	Machines × 3 per month × 1.5	**$12 per 1,000 / mo**	—
Breakdown reports	Machines × 2 per month × 1.5	**$10 per 1,000 / mo**	—
Inventory parts	Catalog size × 1.25	**$6 per 1,000**	—
Online records (months)	Default 12 months; more on request	**$0.10 per GB online**	over 1,000 GB: $0.07
AI credits	Full users × 15 per month	**$0.05 each**	over 5,000: $0.04
Longer analytics history	60 months included	**+$40 (120 mo) · +$100 (all)**	—
Contractors · training modules	Registered contractors × 1.25 · modules authored	**$15 per 100 each**	—
Priority support	Named contact, 4-business-hour reply	**$250 / month**	Onboarding $1,500 once

Example quote — mid-large plant

- 60 full + 200 light users · 600 machines · 4,000 work orders and 3,000 breakdowns a month · 20,000 parts · 1,128 GB online · 3,000 AI credits · 120 months analytics.
- **≈ $2,262 per month (≈ $1,923 with yearly prepay). Per-user tools would charge about $3,000–3,900 for the same 60 people.**

Rules

- Use Enterprise above 40 full users, 400 machines or 1 plant; below $1,000 sell Factory.
- Yearly prepay −15%; two years −20%.
- Above a limit: 1.5× the unit price, with a 10% allowance first.
- SSO, public API and SLA are not available yet — quoted only as custom development.
